

# Pulse app | What is the Pulse app?

Pulse is the mobile app for Brightspace, available in the Play Store (Android) and App Store (iOS).

## Brightspace Pulse

Brightspace Pulse is a helpful tool for students to stay connected and keep track of Brightspace courses.

It gives an easy view of course calendars, readings, assignments, evaluations, grades and activity feed. The app can help make better decisions on how to handle the workload. For example, when to submit assignments, and when to prepare for tests. Real-time alerts will inform students when classes are cancelled, rooms are moved, or new grades are available. The schedule view and weekly visualization enable you to quickly take a glance at what is due during the day, the week and upcoming across all your courses.

For more information on how to install it and use it check the guides created just for you!
